AFFORDABLE AND ROBUST

The smartphone with robust housing

For simple applications in professional environments. Modern smartphone technology in a robust housing at an unbeatable price.

AT A GLANCE

- Dust and moisture resistant: The Samsung Galaxy Xcover 4 is IP67 certified for reliable use even in challenging environments.
- Ease of use: Operate the Samsung Galaxy Xcover 4 in any situation with ease - even when wearing gloves.

TYPICAL APPLICATION AREA

If price is the primary factor and scanning is not necessary or even not at all. TISLOG mobile Enterprise can be used with all functions and of course we also offer active vehicle cradles for the device.

SPECIAL REQUIREMENTS

The Xcover 4 has a large display (5"), which can be operated even when wearing gloves, it is robust (IP67) and supports all modern wireless standards such as wie W-LAN a/b/g/n (2,4 + 5 GHz),, Bluetooth® v4.2, NFC. Thanks to GPS and Glonass reliable locating is possible. Batteries and camera meet the highest standards.

SAMSUNG XCOVER4
