## AFFORDABLE AND ROBUST

The smartphone with robust housing

---

For simple applications in professional environments. Modern smartphone technology in a robust housing at an unbeatable price.

### AT A GLANCE

- Outdoor smartphone with 12.67 cm / 5 "HD display
- Robust, handy and 9.7 mm thin
- Protection against water and dust according to IP68
- High resistance in many ways to the US military standard
- Touchscreen can also be operated with gloves
- Replaceable battery

### TYPICAL APPLICATION AREA

If price is the primary factor and scanning is not often necessary or even not at all. TISLOG mobile Enterprise can be used with all functions and of course we also offer active vehicle cradles for the device.

### SPECIAL REQUIREMENTS

The Xcover 4S has a large display (5 ") that can also be operated with gloves. It is robust (IP68) and supports all modern radio standards. Thanks to GPS and Glonass, reliable localization is easily possible. Batteries and camera meet the highest demands.
