

SNAP-ON ADAPTER FÜR ZEBRA TC8000

TISPLUS Snap-on Adapter for Zebra TC8000

TIS Snap-on adapters for Zebra TC8000 allow the integration of different transponders for the localization of the device within buildings in connection with video surveillance systems.

ITEM NUMBERS

23-80-09-TSO-A	Agilion Transponder
23-80-09-TSO-U	Ubisense Transponder

The mounting is very simple: The adapter is clicked on the upper housing edge and then fixed with 2 screws in existing tapped holes. The power supply comes from the device via USB. Batteries are not necessary for the transponder.

AT A GLANCE

- Transponder is supplied with power via device interface
- The camera remains free and is thus usable
- The guarantee of the device is not impaired
- Loading via the single and quadruple charging station is possible with adapter
- LED to indicate the power status
